MISSION & VISION STATEMENT

Mission Statement

To provide free access to quality health care, good medication, and opportunities to live a healthy life for individuals with low socioeconomic status in their respective countries.

Vision Statement

- Promote healthcare awareness and education to residents in the communities that we visit in the United States and Africa.
- Provide free consultations, medication, and surgeries to patients who require or need such services but cannot afford to pay for the health care cost.
- Promote education and public awareness programs that teach different people in the community about diabetes, high blood pressure, and its related morbidities.
- Promotes awareness and to teach women about the self-breast examination, family planning, and screening for cervical cancer in at-risk areas.
- Promotion of health care education and awareness in line with the millennium development goals outlined by the World Health Organization (WHO) in third-world countries.
